

Chastity Belt Terror

Part 1

"I'm sending you a package" Steven said...

"Promise me, you'll put it on when you get it and wear it till I get home?"

Young 25 year old Lisa promised and the recently married couple hung up. Steven was the CEO of several overseas companies and would be away for several months. After being single most of her adult life, Lisa was ok with that as long as the gifts and checks kept coming in. In less than two weeks, Steven had sent her jewelry, clothing, even new appliances and the big TV delivered only yesterday. She couldn't imagine what else she could get, but she was sure it would be expensive.

Two days later the large box arrived by special courier. Lisa signed for it and immediately ripped it open in the living room. She just stared at it for a moment, yes, it was surely expensive but it wasn't anything like she had ever seen before. As she picked it up and examined it, she started getting excited, not like the diamond bracelet or fancy clothes excited. This was different.

In the 3 years they were married, there were no secrets between Lisa and her husband. Lisa even revealed her deepest, most intimate fantasy to him.....her interest in chastity. It was Lisa's most intense fantasy to be locked into a chastity device and controlled by a lover, willingly of course to be his slave, to serve and service him, and locked up at the same time. Steven was naturally dominant and Lisa loved submitting to him. When Steven announced he would be gone for a long time, Lisa even searched on line for a device to wear, but she still hadn't found one before he left.

Now she was in fantasy heaven. She tore thru the box and removed the accessories and found the instruction book. She was so excited to get into the device she raced thru what she thought she already knew in the instructions and started putting her new toy together.

First was a vaginal plug. Three of them were included, and Lisa tried them all on for size. The longest was almost 10 inches long, using the included lube; she slipped it into her pussy and grunted loudly. The thing was huge and

almost 2 inches too long to fit it all inside her. When she pulled it out, she licked her own juices off of it and picked up another one.

The second one, about 5 inches long was way too short. She felt like Goldilocks, trying the beds of the 3 bears. She finally added a special stimulation sleeve over it and slid the nice 7 inch dildo into her pussy and purred as her body closed around it. Along its length were rows of soft tiny little rubber bristles that moved around inside her as she moved. Certainly any length of time with this inside her would drive her crazy! There was still room inside her; in fact, the instructions suggested that as she wore the device for a while, different positions would change the way she was filled with the device on. Lisa pulled the heavy dildo out and into the belt then twisted it in place. It locked with a loud click and she even felt a vibration for a second as the dildo became part of the chastity belt.

The anal plug was already attached. Lisa wasn't too sure about the size...it was awful big with about a 1 inch hole thru it. No doubt for bowel movements she thought but she never really explored the details, she really wanted to get the device on! Lisa pulled the protective plastic strips off the inside of the waist belt and noticed the little silver dots all around the inside of the belt. She looked hastily in the instructions and discovered that these were body temperature sensors designed to keep the belt at the same temperature as the wearer's body.

She took a quick recommended shower, powdered herself, lubed up her pussy, and her asshole with the included lube and stood there admiring herself in the mirror a moment. She was beautiful, just under 5'10", a strong athletic 110 pounds with long legs and small but pert breasts. Lisa especially admired her pussy. She had a baby smooth mound that protruded outwards from her tight body, with a clean neat slit. She rubbed herself, taking a moment to touch her clit bringing her level of arousal even higher. She considered giving herself a quick orgasm, it wouldn't take much, but she decided to keep that arousal until she was locked up. Surely the dildo and that thing in her ass would give her more than enough to cum later.

Back in the living room, Lisa was trembling with excitement. She couldn't wait to get that dildo into her pussy but she was a little unsure about the butt plug!! Lisa stepped into the soft rubber and shiny chrome steel device and slid it up onto her body. She paused then aligned a small rubber tube up to and into her urethra so she could pee and continued. When the dildo touched her

pussy, she gasped, and raised it more until the tip of the butt plug was at her asshole. The lube for her ass was actually a slight numbing lube, designed to make it easier to get the bulk of the plug past her tight hole. She took a deep breath, and pulled the belt upwards.

It was a good thing she was alone she thought, she grunted and growled as the massive plug entered her asshole. Only halfway in, she couldn't take anymore. Lisa grunted and tried to relax, but the plug was too big. Finally she looked around, waddled halfway impaled across the living room and dropped her weight onto the low coffee table! She screamed and fell to the floor in pain! She was horribly stuffed. The plug was inside her now but her tiny asshole was still stretched around its fat base.

"OH NO!.....OH.....NO!" she grunted aloud.

She tried to push the plug out, she couldn't stand her asshole stretched open, and she had to get the plug out! Lisa pushed, and grunted and cried, but it wouldn't budge. She crawled in pain to the instructions and tore to the pages describing initial fit/anal.

"Please allow up to 15 minutes after initial insertion" the book read...

"A special water base dissolvable coating on the plug will be absorbed by your body and the coarse surface of the plug will assure a permanent placement."

"PERMANANT!!?" Lisa screamed.....

She rolled back onto the floor, and slowly pulled the belt up to her waist. The pain inside her was subsiding but it would take a long time for her to accept something the size of a football permanently inside her ass! Taking a deep breath, Lisa sucked in her tummy and clicked the belt closed around herself. She slowly started to breathe again and realized that around her waist anyway, the device was actually quite comfortable. She wiggled a little adjusting to the dildo in her pussy; she could feel a raised area inside the belt right at her clit. It was round, like a soft "U", and it was perfectly located right at the top of her slit.

Lisa laid there a moment as the pain inside her ass subsided, but the presence of the plug inside her was still very constant. She sat up a moment

and actually managed to stand up. She was so full inside....front and back. She walked like a duck, but her normal stride returned after about 5 minutes and some adjusting. She tried to reach for her pussy, she wanted to touch herself, find her clit and retrieve the orgasm she denied herself in the bathroom earlier. She couldn't even get a finger into the belt. She sucked in her belly again but it didn't help, the rubber lining seemed to expand and stay snug around her. Inside her pussy, those tiny little bristles seemed alive, every move she made, every time she squeezed her pussy around the dildo, they wiggled and tickled.

Suddenly the belt.....clicked. It scared her, and then it clicked again and actually began to vibrate for a second. As soon as Lisa thought she could cum to the vibration, it stopped. Lisa moved to a large mirror in the hallway and looked down. On the front of the belt, a tiny orange light was blinking. Seconds later a blue light was blinking beside it. She reached down to examine them to discover they were built in and covered; she couldn't feel anything but the smooth surface of the belt. As she watched, both lights stopped and a third, green light came on and stayed on.

Lisa really jumped when a soft female voice filled the room. She turned in shock but no one was there, she was alone. The TV was off, the stereo was off too, but the voice continued.

"INITIAL FITTING COMPLETED.....SYSTEMS CHECK COMPLETED.....ALL CIRCUITS ARE SECURE....PLEASE ENTER COMMAND CODE TO CONTINUE"

Looking down, Lisa discovered that the voice...was coming from the chastity belt! A fresh wave of cramps tore thru her backside and Lisa bent over in pain. She grunted and pushed against the huge plug in her ass but it didn't help. Every 30 seconds the voice between her legs kept asking for the command code. Lisa returned to the instructions and looked up command code in the index. The book instructed her...to call a toll free number.

"Uh...hello?" she grunted into the phone.

"This is operator 33, how can I help you?"

The voice was female; at least she didn't have to talk to a man! She could only imagine telling a man she was at home with a butt plug in her ass and she didn't know what to do!!

"My name is Lisa" she started.....

"I...uh.....have thisthing...on.....and...Uh...."

"Are you wearing a device?"

"A device....yeah" Lisa stammered.

Lisa gave her all the info she asked for, model and serial numbers including her name and address and even phone number then when she asked for the purchasers name and Lisa gave her Stevens name...things went sour.

"We have no record of that purchaser" the operator said.

"Then" Lisa grunted angrily.

"Who...DID buy it?!"

"I'm sorry...we cannot reveal that information"

"Well somebody bought it, because I'm wearing it right now!" Lisa barked.

"You....have it..on?"

"YES!...and it keeps asking for a command code...why is this thing talking to me?"

Lisa explained that the device clicked and the orange and blue lights were blinking and then the green light came on. The operator was silent for a moment and Lisa could hear other people on the line as well.

"Are you going to help me or not?" Lisa demanded.

"I have this....thing on.....there's a dildo in my belly and a plug the size of a fucking basketball in my ass....and its talking to me.....and you can't tell me who it even came from?"

Lisa was sure she heard laughing in the background then the operator was silent for a moment, and she returned to the line.

"According to the serial number you gave me" the operator said.

"You are wearing a Secure-All 6000, it's the top of the line fully electronic chastity system, it's the best we make"

"Well good for you..." Lisa grunted.

"Where did it come from? I thought my husband sent it. I mean...I...we...kind of share this....FUCK!....if he didn't buy it. Who did, and why was it sent to me?"

"Our records are quite confidential, the buyer's information cannot be revealed unless you have their account password"

"I don't even know who...HE..is!"

"I'm sorry. I cannot give you that information; however we can help you program the device"

The operator was typing something on her computer and the device was clicking and receiving the information electronically. After about 5 minutes, the operator returned to Lisa.

"The command code has been entered" she explained.

"So now what?" Lisa asked

"You must give the device a name.....you can communicate with it verbally"

"What?.....you mean talk to it?.....does it do?" Lisa asked.

"You have limited functions.....as far as...well.....feedback, as to how you are feeling or reacting to the device....you will have to inform the device as to your needs for bodily functions, and discomfort or pain you are experiencing, the device will also alert you to any programs activated. There are adjustments and some functions you can request but they are rather limited"

"What about the ...unlimited functions?" Lisa asked.

"Does someone else...have more control than I do?"

"The administrator, that is, whoever purchased the device has authority control. It's programmed by him, or her and all functions are controlled by a simple cell phone or computer. It can be done anywhere in the world,

however the controller is usually someone near you, perhaps someone you know, who can monitor and observe you."

"This is insane!" Lisa growled.

"OK. So how do I take thisoff?"

"Take it...off?.....Uh.....you don't" the operator said almost giggling.

"The 6000 is a permanent device; didn't you read the red warning book in the instructions before you put it on? There are approximately 40 built in batteries built into the waist band, those are the little silver spots you might have noticed around the waistband, that's enough to keep it powered for around 30 years, your own body heat actually recharges them as you wear it and the plug in your rectum has a special coarse covering that by now has already bonded to the tissues inside you and can only be surgically removed."

Lisa was silent for a long moment.....then she had to ask.

"What about.....sex?"

"Well I shouldn't tell you this but I will" the operator said.

"The device is programmable by the controller to give you or deny you sexual pleasure. Its currently set to allow you....let's see.....3 orgasms every 24 hours, any more than that will be denied, blocked, however the controller can over ride that and give as many as he, or she wants you to have. The controller can actually block you from cumming, or you can be forced to have an orgasm you don't want. Be very careful about being out in public if you know what I mean"

And how am I supposed to cum if I can't even get to my myself?"

"You must give the device a name" the operator repeated.

"Then you merely talk to it, tell it what you want. A regional supervisor will be contacting you with more, uh, details, soon. Good Luck my dear, have a nice chastity life and welcome to the Secure-all family"

Lisa sat back in total shock for almost an hour. A hundred questions raced thru her panicked mind. Who sent this? Who controls this? What is she going

to tell Steven? Finally she verbally entered a numerical code the operator gave her to the device and waited. It beeped a couple times, and then the soft female voice spoke to her.

"Please tell me your name" it asked

"I'm Lisa" she whispered.

"Hello Lisa, and what is my name?"

"Pussy" Lisa responded after thinking a few moments.

"If I'm going to talk to it, I might as well call it what it is" Lisa whispered to herself.

"I like that name" she whispered.

Lisa started with every question she could imagine trying to find out who the device came from but was told every time that Pussy did not have that information. Pussy explained some of her abilities...like vibrations from mild to wild, how to assist with bodily functions and even a wake up alarm programmable by Lisa herself. Pussy explained that Lisa merely had to inform "her" when she had to relieve herself, so pussy could open or close the hole in the butt plug to allow bowel movements, or open the outlet of her urethra insert so she could pee. Finally Lisa cleaned up the packing material and sat back on the couch to relax.

"Pussy" she said.

"I want to cum"

"You have 3 orgasms available" Pussy whispered

"Well I fucking WANT one NOW!" she grunted.

"I am authorized to allow you an introductory orgasm" Pussy then announced.

"There is no need for profanity. Try to remember who and where I am"

"This will be an initial demonstration of my functions including the blocking function. This program is set to 30 minutes.....please stand by"

"Pussy?" Lisa asked

"Explain the blocking function"

"The blocking function is a slow stimulation process designed to increase your sexual arousal over a 30 minute period, you will be brought to the point of orgasm but denied for the full 30 minutes. After your orgasm has been denied, you will be electronically blocked for approximately 4 hours."

"What if I REALLY need to cum....you won't let me? You keep me on the fucking brink for half an hour and then just quit?!"

"The blocking function is controlled by the administrator" Pussy repeated.

"After a blocked session you must wait 4 hours to attempt an orgasm again"

"OK" Lisa groaned.

"Make me cum ...NOW.....please"

"Initiating orgasm sequence, please stand by."

Part 2

In less than a few seconds the dildo in Lisa's pussy began to vibrate. She purred like a kitten as her insides became wet and slimy. The vibrations increased then decreased as her arousal grew. It was a delicious tease and was very stimulating! After 5 minutes Lisa grunted as the dildo inside her actually began to expand. It got longer, even a little fatter. This pushed her mound outwards and the soft O around her clit went to work. Lisa found the smaller dildo she didn't use and started sucking on it, pretending it was Steven.

The dildo still inside her started to fuck her, only about 2 inches or so. All those little bristles were really working now, tickling and teasing, it was almost more than she could stand! She grunted as she was completely filled, then evacuated just a little and fucked again. Lisa arched her back like she was pushing against someone fucking her and she grunted at the pain her plugged ass gave her. She relaxed again and enjoyed the limited fucking working on a desperately needed orgasm.

"OH!.....PLEASE!.....FASTER!" Pussy" Lisa groaned.

"I cannot perform that function" Pussy whispered quite mechanically.

"OH FUCK YOU..I need to CUM!" Lisa grunted.

"Re calibrating program" Pussy then announced.

Suddenly a sharp electric jolt hit the inside of Lisa's pussy! She shot up and screamed.....even as the dildo continued to fuck her.

"WHAT THE FUCK WAS THAT?!!!" Lisa screamed.

"Your program has been upgraded to include a short electric shock every time you address me with profanity" Pussy said.

"PUSSY.... that fucking HURT! END PROGRAM!" Lisa grunted!

"The current program cannot be cancelled for 19 minutes" she replied.

"STOP THE FUCKING PROGRAM!...you can keep your damn orgasm....STOP IT!!" Lisa screamed.

Again she was shocked for almost 3 seconds and she fell into a ball on the floor screaming. The vibrations inside her increased now and the humming against her clit were having an incredible effect. Lisa rolled onto her back and automatically grabbed her crotch only to find it covered with softly vibrating steel. The dildo inside her was moving again and now it was even rotating! Just once or twice it paused and changed direction, moved in and out and even paused when Lisa needed it to continue. The vibrations grew stronger. Lisa never could resist a vibrator. Lisa rolled onto her knees and grunted loudly.

"Increasing arousal level" Pussy whispered.

"Possible orgasm in 11 minutes"

Now a very faint series of electric impulses filled Lisa's pussy. It wasn't enough to cause pain but it certainly doubled her need to cum! The dildo started and stopped and started again!

"OH YESSS!.....FUCK ME!!" Lisa screamed.

Way down inside, Lisa felt it, growing like a small hurricane, it was swirling inside her, her belly grumbled, and her muscles tightened. Her pussy was dripping now and she could feel her juices running out of the device and down her legs. Again she reached for her clit. A single touch would get her off but all she felt was cold steel. The dildo inside her was moving again, this time it had actually expanded in thickness to adjust to her sopping hole.

"PUSSY!.....FUCK ME.....MAKE...ME...CUM!" Lisa cried.

"Possible orgasm in 4 minutes"

"NO!..I CAN'T WAIT!.....PLEASE!..I NEED IT..NOW!...PLEASE MAKE ME CUMMMMM!!!"

The dildo picked up speed and Lisa was screaming as her orgasm built like an out of control fire. Her clit was swollen and throbbing; this was going to be the best orgasm of her life! The dildo suddenly stopped and the vibrations at her clit increased. Lisa was on her knees screaming. She was going out of her

mind, panting like a mother giving birth. She tried to speak, to beg, to cry out but she couldn't even talk.

"Orgasm immanent" Pussy announced.

"In 5...4...3...2....."

Then it stopped. It was there, ripping out of her like a bomb, Lisa's legs wouldn't even hold her up, and she collapsed in a ball with her hands digging at her crotch. The dildo stopped, the vibrations stopped, Even with 7 inches inside her Lisa felt empty.

"NNNNOOOOOOOOO!.....OHHHHHH PLEEEASSSSEE!..NOOOOO!" Lisa screamed.

"Orgasm blocked" Pussy said calmly.

"Program complete"

Lisa laid there for 15 minutes, softly sobbing, the ache inside her lingered on and on, she was so horny! She bucked her hips trying to fuck the dildo inside her but it didn't help.

"Please.....please.....let me cum" she kept repeating.

When she finally made it to the bathroom she thought a second. Maybe she could short this thing out; it would short circuit and fall off.

"The 6000 series is completely waterproof to a depth of 1000 feet" Pussy announced.

Lisa switched the shower to a bath and sank into a hot bubble filled tub. She fell into bed before the 4 hour waiting period for another chance to cum was up. It was 3:14 by her clock next to the bed, when Lisa awoke to fresh vibrating inside her pussy. She thought it was a dream but the vibrations increased then she was being fucked again.

"PUSSY!.....uh...uh...what are you doing?!" Lisa grunted!

"Remote activation in progress" she replied.

"Remote...what?.....who is.....what remote activation?"

I have been activated by the controller" Pussy explained.

"By....HOW!?" Lisa grunted.

"The program has been activated by cell phone from an undisclosed location" Pussy said.

Lisa laid back and moaned as things started moving and vibrating inside her. She was instantly aroused and it was growing stronger by the second.

"OH!.....YESSS!.....PUSSY.....I'm finally GONNA....CUM!"

"Program initiated.....orgasm.....blocked" Pussy said.

"OH..NO!....YOU...CAN'T DO THIS TO ME AGAIN.....PUSSY!.....I NEED...TO...CUM!"

"Orgasm blocked" Pussy repeated.

"Potential orgasm...in 6 minutes"

"PUSSY!....MAKE ME CUM YOU BITCH!.....I NEED TO CUM!"

Lisa screamed as the punishment for cursing delivered sharp horrible shocks to her pussy and clit. The dildo inside her nearly doubled in size and Lisa thought she would split open. It fucked her slowly, letting her feel every inch of its movements. Lisa's clit was nearly exploding now, she knew it was hard and the vibrations were driving her insane. As her orgasm hit her it stopped. It was like being shot, like someone had ripped every nerve in her body away and she was left blubbering and convulsing. Several minutes later she fell back sobbing with horrible frustration. Like every man, the cock inside her had gotten what it wanted from her and left her dying inside.

"Program complete" Pussy said

"Orgasm denied"

The next morning in the kitchen the vibrations inside her began again. Lisa dropped a full cup of coffee as her pussy began to respond.

"Remote activation in progress" Pussy announced again.

"Pussy...PLEASE let me cum" Lisa begged.

"Program activated" the belt responded.

"Orgasm blocked"

Thirty minutes later, Lisa lay on the cold kitchen floor a nervous wreck. Her whole body trembled and every nerve and muscle in her body ached. Again she was within a second of an incredible orgasm, that didn't happen.

"Program complete" Pussy announced.

"Orgasm denied"

"What....what about my....3 orgasms a day" Lisa sobbed.

"You are authorized 3 orgasms within a 24 hour period" Pussy explained

"However following a blocked orgasm, you must wait 4 hours before requesting another attempt"

Three hours later Lisa was still on the kitchen floor. She crawled to the couch in the living room and started counting the minutes to asking for her first pleasure in days. She hadn't cum since before Steven left; she remembered her chance in the bathroom before she put the belt on and cursed herself for not taking it. The only thing in her life that mattered now was an orgasm, just one, a single fucking orgasm after almost 24 hours of being cruelly teased and denied.

Eleven minutes until her four hours expired she spread her legs over the arms of the recliner and rubbed the shiny steel covering her crotch. She had the biggest dildo in her hands again and was already trembling at just the thought of wringing it to shreds just like she was going to do to whoever was ruining her life!. With only 4 minutes to go Pussy came alive again.

"Remote activation in progress" She announced.

"PUSSY!...NO!...YOU CAN'T...PLEASE!!!" Lisa cried.

"Program activated" Pussy said.

"Orgasm.....blocked"

Lisa fell to the floor sobbing and grabbing her crotch as the vibrations began again.

The rest of the day was more of the same. Every 3 1/2 hours, a new program was initiated. Pussy explained that the programs were remote activated but didn't know from where. She also told Lisa that the programs were already loaded, that is, they were not called in one by one but they were pre programmed.

"Is there....a time..I mean...how many....how long does this last?" Lisa whined
I have 16 more active programs waiting" She said.

"16?!" Lisa gasped.

"That's....two days???"

"And they're all...blocked?"

"All programs carry an orgasm block" Pussy replied.

"Every 3 hours and 55 minutes you will experience a 30 minute orgasm cycle however you will not be allowed to cum"

"I'm going to....die" Lisa sobbed

By the next morning, Lisa looked and felt like she was dying. Dark circles formed under her eyes from lack of sleep. She was a nervous wreck, dreading every next cycle, but waiting for it as well. To make thing worse, she developed a horrible itch inside the belt. When she asked Pussy about it she had only one explanation.

"Did you shave yourself before putting on the device?" Pussy asked.

"I've always been shaved" Lisa answered.

"The directions are quite clear" Pussy said..

"What you are feeling is your hair growing back, you can no longer shave there, and you will have to endure the sensation until your hair grows out"

Mid afternoon Lisa attempted to make a rush trip to the store in between torture sessions. Her new device fit easily under a skirt and no one could tell she was chastised. She rushed to the store and upon pulling into the parking lot, her pussy exploded with unbelievable pain!!!

"OH!....FUCK..HELP...PUSSY...WHATS WRONG!?"

"You have been programmed with a location limiting program" Pussy said.

"You cannot travel more than 1/2 mile from your home. The result is an electrical discharge inside you."

"I can temporarily pause the program however you must return home immediately, your next scheduled orgasm program will commence in 23 minutes"

"Store security detained her for almost 15 minutes for crashing into shopping carts, but let her go with a warning not to return there. On the way home, she came across a police roadblock, apparently a water main had broken and she would have to back track and take a longer route home. Four blocks away, she passed thru two school zones and got stuck behind a stopped school bus.

"Orgasm program will start in one minute" Pussy announced.

In a panic, Lisa pulled into an empty warehouse lot and grabbed the wheel with both hands. As the vibrations started, Lisa began to grunt and writhe in her car seat. A homeless guy stopped to watch her for several minutes then left. When it was over, Lisa was a soaking wet, totally drained wreck. She made it to the garage and had to crawl into the house. Back in her bed at last, she cried herself to sleep. She dreamed of men and of cocks, fucking her over and over, her orgasms wracked her nonstop, she couldn't stop cumming and the men kept on fucking her. She woke up again when the vibrations started again, fuck!, it was all a dream!

Steven called that afternoon and asked if she had received the shawl he sent her from Saudi Arabia.

"You....sent me a shawl?.....that was the package?"

They chatted briefly and he explained he should be home in another month or two. She asked him about the chastity belt. He seemed amused at her condition but denied any knowledge of it. He was lying Lisa thought; she could hear it in his voice. As fresh vibrations started between her legs Lisa hung up. The torture went on and on. Lisa was naked all the time Every time a car passed or a plane flew overhead she jumped thinking it was another cycle. On the morning of day three a fresh cycle began when the phone rang.

"Hello" a friendly sounding female voice said.

"OH!...no thanks....I'm not buying anything" Lisa grunted.

"You don't have to" she giggled.

"It's already paid for, and you're already wearing it"

Lisa almost passed out, the cycle was just starting inside her and her pussy was on fire.

"How did you...I mean...who....are you?!" Lisa growled angrily.

"I'm the one who sent you the device you're wearing. I didn't think you would really put it on so easily"

"PLEASE!....OH PLEASE...CAN YOU STOP IT?!"

The device, already fucking Lisa's pussy...suddenly stopped.

Lisa was panting like she'd just run a marathon. Her pussy still quivered and tingled inside.

"Please...who...I mean...why are you doing this?!" Lisa moaned.

"Because.....I can." The woman said.

"Do I know you?" Lisa asked

"Not yet"

"Where are you?"

"Closer than you think....." she said.

"WHAT?.....do you want?!"

"I want you" she laughed.

"Remember what a real orgasm feels like?.....I can give you as many as you want...or keep you from ever cumming again.....I can keep you on the brink for hours, the 30 minute cycle is just a tease....I want you to be my slave"

"I'm married!" Lisa screamed.

"You can't do this.....you can't make me do anything.....you BITCH!.....you can't even make me cum!"

The woman on the phone was laughing again. Lisa could hear her typing on a keyboard, and then she spoke again"

"You want to cum?...my love?.....you want an orgasm?...or two?.....how about 30 or 40?...I've just reprogrammed your little toy, what's her name?...Pussy?....you want to cum?.....crawl out....into the middle of your front yard.....naked....when you've had enough...I have you on satellite image....when I see you outside begging me....we'll talk again."

The phone went dead then and Lisa slammed the receiver down. She went into the living room and dropped into the recliner.

"Remote program initiated" Pussy announced.

"What NOW?" Lisa growled.

"Orgasm over ride has been initiated" Pussy said....

"What?....have I been blocked...again?"

"Orgasm blocking has been discontinued" Pussy said.

"Orgasm program activated...starting in 5 seconds"

This time the 30 minute program was reduced to 15 minutes. The vibrations were faster and stronger; the dildo inside her was slamming her. Lisa felt the familiar sensations of an orgasm growing faster and stronger than ever. She twists and grunted, her legs curled up to her chest and this time, the orgasm didn't stop!

"HOLY.....SHIT!" Lisa screamed!!!

Her orgasm hit her and she curled up into a ball and fell grunting onto the floor. The vibrations didn't stop this time. It continued and so did her release. After several days, this was the definition of a climax!! Lisa screamed, she cried, she howled as her body cramped up, the orgasm hit her and didn't stop. The pleasure of actually cumming again turned to pain!

Lisa's whole body hurt. She couldn't relax or even move. Every muscle inside her was cramping up. The vicious explosive effects of an orgasm just went on and on and on. Lisa was on her knees when the fourth explosion inside her subsided but she collapsed screaming as the next one hit her. She had never cum twice.....or three times as a third and now number 5 body wracking climax ripped thru her. It just went on and on and on.

"PUSSY!.....PLEASE...OH FUCK!...PUSSY....STOP...STOP THIS!...PLEASE!" Lisa begged.

"Program over ride has been initiated" Pussy purred.

"Orgasm protocol is active....you have achieved 9 orgasms....orgasm protocol is active....you must achieve 100 orgasms to complete program. Program will end in.....91 orgasms"

The next hour was a blur for Lisa. She was lying on the living room floor convulsing like she was being electrocuted. Thick drool was running from her mouth, her eyes had rolled back into her head and speech, even screaming was impossible. A large puddle was under her ass, she had cum so many times her pussy had formed a lake, mixed with her pee which she lost half an hour ago.

Part 3

The phone had rung several times but Lisa was in no condition to answer it. She had no idea how long the nonstop orgasms went on; Lisa guessed it had been hours. At the moment, the program was on pause.

"The current program will continue in 3 minutes" Pussy announced.

"OH!.....PLEASE!...NO!" Lisa sobbed.

"NO MORE!.....I can't take any more!"

Again the phone rang and it was Pussy who instructed her to answer it.

"Well, how's my little cum slut?" the voice chuckled.

"According to your device...Pussy is it?.....monitoring system, you've only had 49 orgasms....that's surely a record...shall we continue?"

"NO!.....PLEASE!.....NO!.....I'll do...anything...PLEASE!...NO MORE!"

"WHO.....who are you?" Lisa cried.

"Since we're going to be working together" the lady said.

"You can call me MOTHER!"

"But.....you're not.....my...mother died years ago" Lisa said rather angrily.

"I...can't call you..my."

Suddenly the device clicked and the dildo started moving inside Lisa's pussy again. She grunted and fell to the floor as the vibrations started as well.

"OK....OK....MOTHER!.....what do you want?.....please...no more!"

"YOU" she giggled.

"I want to see you in the front yard on your hands and knees. If you're not naked, you better be.....I want to see you eating grass, I have a perfect satellite image of your house so don't fuck with me...you have one minute"

Lisa looked outside and then at the clock. It was 11:30AM.....it was broad daylight on a Saturday....people would be home.

"OH..PLEASE...I have neighbors" Lisa whined.

"You have 45 seconds or I resume your orgasm program" Mother said, and the phone went dead.

Lisa was in tears now. She opened the front door and stared outside. A quick glance up and down the street showed no one else outdoors. She had never been outdoors in public...naked.....other than sunbathing in the private back yard, this was different. Her naked feet on the front steps was so strange, she tiptoed a few feet and fell to her hands and knees on the cold wet grass.

"Current program will resume in 29 seconds" Pussy announced.

"PLEASE Pussy, SSHHHHH!" Lisa whispered.

A guy across the street backed out of his garage and drove away but he didn't see her. Lisa crawled to the center of the lawn and dropped her head. The sun was already hot; it felt so strange on her naked body. Down the street a dog was barking...surely someone would look outside to investigate. Down the street a garbage truck was working its way to her house. She could hear voices next door, she didn't even know her neighbors, and they seemed to be in the back yard and at least where they couldn't see her.

"PLEASE...look.....see me.....look!" Lisa prayed.

"Current program will resume in 11 seconds" Pussy said.

"NO!....I'm here...please!.....look...I'm here!" Lisa said aloud.

Pussy began a countdown then.....

"Current program will resume in 8,7,6,5,4,3.....program terminated"

Inside the house the phone was ringing again. Lisa stood up and glanced around....especially across the street. There was two girls there, probably 15 or 16.....staring at her! Lisa froze for a second, standing naked in her front yard wearing nothing but a silver chastity belt around her crotch. The girls were in as much shock as Lisa was.....they just stared then one whispered something to the other and both girls giggled.

Lisa raced inside and double locked the door, then grabbed the phone. It was mother of course.

"That was very rude of you" she said

"Not to say good morning to your neighbors across the street"

"PLEASE...what do you want?" Lisa begged.

"To begin with.....do you have a cell phone?"

Lisa raced to get it, and as Mother instructed, she removed the battery and the tiny sim card inside. Mother directed her to a tiny slot on the right side of the belt and told her to insert the phone's sim card...and wait.

"That's better" Mother then said.

Lisa was shocked to discover that Mothers voice was now coming from her chastity belt!

"Isn't that better?" Mother joked.

"From now on, you'll have ME right here with you....feel me?....inside your pussy? I'm that devilish dildo inside you; you did add the tickler insert didn't you? I designed it myself but went practically crazy after wearing it for only an hour! Lucky you, you're going to feel it inside your pussy for the rest of your life. Certainly that plug in your ass has become quite annoying by too"

Mother activated the vibrator for about 30 seconds, but turned it off again just to remind Lisa that she had total control 24/7. Lisa collapsed on the couch and wiped her tears away. Her whole lower body was covered with dried pussy juice and her own pee....and there was still a huge wet spot on the carpet from last night. She tugged again on the belt she was wearing but it would never pass her hips. She tugged on it, then angrily pounded on it.

Lisa screamed as sharp electric shocks then hit her everywhere around her waist. The pain was excruciating....and she screamed over and over!

"That's just a reminder" Mothers voice said.

"Any attempt to remove the belt, or damage it, tampering with the locks or electronic components will activate the security systems...this will result in the shocks you just felt...all those little silver contacts inside the waistband are not only sensors to monitor your body's condition, it's also an electric shock system"

"PLEASE....I want to take it off!.....this thing in my pussy is driving me crazy, it feels like something is crawling around inside me, it feels like it's alive! You can't really expect to keep me plugged...forever!"

"I'm afraid I do" Mother explained.

"After all, you put it on voluntarily, isn't this really what you wanted?"

"You're part of the Secure-All family now. I've increased your allowed orgasms to 5 a day, I expect you to initiate them yourself, until you work off the rest of the 100 you owe me. If you don't, I'll take them from you 10 or 12 at a time. Be home tomorrow morning, Have a nice day"

The next morning Lisa received another special delivery. She wasn't really surprised when it was not only the same courier company but the same driver that had delivered her chastity device. She was dressed of course when she answered the door but the driver seemed to know what she was wearing under her dress. He smiled at her and even asked if her last delivery was received on good condition. The look on Lisa's face was priceless, and before he left, the driver winked at her, welcomed her to the family, and even promised she would see her again...soon.

Inside the delivery packet was a book of sorts. It was actually a welcome packet from Secure-All and about a dozen faceless photos of other women wearing the same device she was in. What really surprised her was that some of these women were in their 10th or 12th year!! Lastly Lisa found the membership benefits packet and sat back to read it.

"Secure-All Corporation is a multi-million dollar organization devoted exclusively to the chastity lifestyle and those who live by it."

"While the majority of our wearers are women" it continued.

"We do have over 20 young men, some voluntarily, some not, currently in chastity and serving our exclusive clients worldwide. The information within this attached file is confidential, as is yours as well. Please be advised that any sort of sharing of this information can and will result in the release of your personal data as well and extensive measures have been taken to protect our clients and wearers."

Lisa opened another packet and her eyes just stared at the files within it. While there were no photos, there was a list, of over a hundred men and women, names, addresses, even contact numbers all within about 30 miles of her home. An attached information sheet explained the true details of the Secure-All clients.

"The attached files" it began

"Are not of device wearers, they are in fact, contact information for our very exclusive financial sponsors. Every major corporation has investors, who receive dividends based on the company's performance, dividends and benefits based on the investor's financial contribution to the success of our company."

"You are a non financial investment in our company and one of the exclusive benefits offered to our true investors is the personal service you will be required to provide these individuals. Included is a list of investors within your area. Your responsibility is to make periodical visits to these persons and provide them with what Secure-All likes to call dividend benefits."

Lisa dropped the letter like it was on fire! Her mind was exploding with the mere thought of what she just read. There was over a hundred names on the list, men and women. The words Mother said to her raced through her mind.

"I want YOU" she remembered mother saying.

"I want you...to be my SLAVE"

"THIS IS INSANE!" Lisa screamed to an empty house.

"She expects me...to be a sex slave.....her corporate fucking whore?!"

Suddenly the vibrator inside her started and seconds later it stopped.

"Good morning my pet" Mother voice said.

"Did you get my delivery?"

"Are you fucking kidding me?" Lisa screamed.

She was rewarded with several seconds of horrible electric shocks deep within her pussy. Lisa howled and fell to the floor curled into a ball.

"You are not to take that tone with me sweetie" Mother said....

"And you will not speak to me with profanity!"

"FUCK YOU!" Lisa screamed.

Again the electric shocks hit her and she screamed again. This time the shocks lasted about 15 seconds and stopped. Five seconds later they started again. Lisa couldn't even speak; she buried her face into a pillow and rode out the pain. The cycle repeated itself over and over and over. The vibrations began and stopped. The dildo enlarged and fucked in and out, then stopped. The electric shocks hit her at various intervals. Thirty minutes later, Lisa was beyond sore from her toes to her throbbing head. She peed all over the carpet, and was now no more than a convulsing sweat covered body writhing on the floor.

"Do we have an understanding young lady?" Mother asked.

"I can leave this program on for another 30 minutes..... I can activate it at night when you're asleep, I can leave it and make you walk naked around the block or just leave it on indefinitely but it might actually kill you, slowly and quite painfully"

"NO!.....PLEASE!.....OK!.....PLEASE!.....I'm sorry.....Please...no more!" Lisa begged.

"So you've read the files, your name and information has been forwarded to everyone on the list, everyone is very anxious to meet a fresh young member of our team"

"What?...what do I have to do?" Lisa moaned, still quivering from the shocks.

"It's quite simple" Mother explained.

"Our members have invested a substantial amount into our company in order to research and develop such devices as you are wearing right now. You're a very lucky girl to have been fitted with such an incredibly advanced design, it took years to perfect the 6000 series and it should last for years and years without and maintenance or repairs"

"I don't feel lucky" Lisa groaned.

"If you look at the list again" Mother said,

"Every member has a code number next to his or her name. Every morning you will be contacted and given you the code numbers of the individuals you are to visit. The names are fictitious of course, and the secretaries, receptionists or screeners, even security will recognize you by the name you give them and know why you are there."

"Everyone is going to know why I'm there?!" Lisa growled...

"But how am I supposed to have sex with these people if I'm locked in this thing for the next 30 or 40 years?!"

"We have different individuals wearing different devices...designed for different activities" Mother explained.

"Your particular device, well, you really only have one option."

"NO!...PLEASE OH!...NO!...you expect me to travel all over town...giving blow jobs?!"

"I'm afraid that term will be unacceptable to our clients" Mother said...

"You'll be required to use ORAL INTERVIEWS"

"But there are women on the list.....what am I supposed to do for women?"

"I do have a file on you somewhere here" Mother said.

"Apparently you have a history...of lesbian tendencies.....I'm sure you'll know what to do with a nice pussy shoved into your face!!"

"It's insane...it's just crazy...you can't make me your traveling sex slave...you can't really expect me to go around sucking cock for people I don't even know..I can't...I won't!!"

"Tell me" mother asked...

"Which did you like more?.....two days of teasing and denial or 49 non-stop orgasms? By the way, you still owe me 51 more"

The vibrator in Lisa's pussy fired up then and she grabbed at her already sore crotch.

"Remote program initiated" Pussy's voice said.

"Stimulation sequence set at 15 minutes, level 5, intense, orgasm denied"

"We'll talk again in a couple of hours" Mother said.....and she hung up!

After the first four cycles, Lisa was ready to tear her hair out. She was pacing around when she could stand up.... between dropping to the floor and screaming every time a fresh orgasm was denied....after hour two when Mothers voice greeted her again...Lisa was defeated.

"OK!....YES!...I'll do it...PLEASE!.....anything you want!.....PLEASE!.....let me cum!!"

"Well, you do still owe me 51.....I'll give you one.....every hour.....until say...midnight....that's 12 hours from now. I'll expect you to be ready for your first day by 10AM.....the list will be delivered to you in the morning. Have a nice day my pet!"

Pussy's voice then startled her.

"Remote program initiated"

"Orgasm allowed"

"First cycle to begin in 58 minutes"

"Please stand by"

"OH SHUT UP!" Lisa growled.

She dropped back onto the couch and wiped the tears from her eyes. As she studied the list she was given, something haunting bugged her. Why, how, was she selected for the chastity program? Why hadn't she heard from Steven in 2 days? How did she know he wasn't with her right there, right now? How did Mother know that she loved sucking cock more than anything in the world, and that she had a history of sex with women?

Lisa jumped up with a start. It was him, it was Steven. The chastity device WAS the package he sent and he told her to put it on. Everything he did he used a password on, so he used another name and she recalled the stocks investment he made months ago!

"This investment will bring me dividends for life" he said.

"ME?...not US!...HIM....dividends for life!!"

Lisa didn't know whether to be heartbroken or furious. She felt so betrayed, so used, how could he do this to her, she was his wife; he said he loved her; he knew everything about her and used it against her. Later that afternoon, after her second orgasm and half a bottle of tequila, she received a telegram. She was drunk and opened the door completely naked.

"I suppose you want a fucking blowjob too!" she growled at the delivery guy.

Lisa signed for the telegram and left the young guy standing there with his mouth hanging open. She ripped the telegram open expecting to find her first assignments the next day; instead it was from her husband.

"Welcome to the family. Living in London now. Your house, expenses and allowance are paid for life. Enjoy the SA6000 it's the best. Say hello to Mother. Love you. Steven."

Part 4

The next morning Lisa was startled by a knock on the door. She had just finished a shower after very little sleep last night, not to mention the tequila hangover. She struggled thru 12 hourly orgasms and evil dreams about what she would do if she ever saw Steven again.

At the door was the same driver, a young 22 year old kid who introduced himself as Troy. Lisa reluctantly let him and even offered him coffee, since there was obviously no secrets between them.

"Oh, I want more than coffee" He said with a big grin.

"This package is C.O.D.....they all will be from now on." he said.

Lisa reached for her purse, and Troy chuckled. He moved closer to her and grabbed his crotch.

"You don't pay me.....like that" he whispered.

"I bring you your assignments for the day.....and every day you suck my cock!"

"Lose the dress" he said as he guided her into the living room.

"I want you to be naked, I want to see. YOU, and most of your clients will too so don't bother wearing panties when you go out. Your first one of the day will probably keep them anyway."

Troy pushed his pants to his ankles and dropped onto the couch. He wasn't even hard yet but he was still a good 6 or 7 inches soft. He just leaned back and smiled at Lisa who stood there terrified. She'd sucked cock before, but never like this, to someone she didn't even know, ordered to against her will, and it was only 8:30 in the morning.

"Do you do a lot of deliveries every day?" Lisa asked.

"Sometimes, yes" Troy said.

"The pay is good but the benefits are great. You're my third this morning. So this might take a while. I recharge quickly so don't worry, I promise you a nice big load!!"

Lisa dropped to her knees and took Troy's slowly rising cock between her lips. He tasted of soap, but also of saliva and even cum. Almost immediately he had her head in her hair and was pushing her head down. His thick sweaty pubic hair covered her nose and she struggled to get air thru her already full throat.

"I like it nice and slow" he moaned.

"All the way down. I want to feel my balls on your chin .Hold it in your throat till I tell you, and keep it wet, no teeth, and I expect you to swallow every drop. I'll let you know when I'm cumming"

Despite the resentment of having to do this rather than wanting to, and being told how to, Lisa's pussy was getting wet. Sucking cock always did turn her on and this a nice cock, thick and solid with a nice fat head, and he had great balls! Lisa sucked him softly, and slowly. She barely choked when he was balls deep in her throat. Steven was almost 9 inches and she could take him easily, this guy was about 8.

It took him nearly half an hour to cum. It was his third time since 6AM. Lisa wondered about the others, were there more like her nearby?.....did this guy really spend his whole day getting free blowjobs?. Troy started panting, and wiggling around. Lisa prepared herself to swallow.

"I...I'm.....CUMMING!!" Troy grunted.

Although she loved sucking cock, Steven always came on her face....she was NOT a big fan of having a guy cum in her mouth, it was disgusting to her, the taste was awful, and she couldn't stand actually swallowing the stuff. Troy slammed her head into his crotch and exploded into her throat! She started gagging, but gulping. There was a lot of it for his third time; it took several big spurts to drain him. Afterwards he held her there until she licked him clean.

"Not bad" Troy said once he released her.

"Not...BAD?" Lisa grunted.

"You came in my mouth.....and I swallowed it...and I'm NOT BAD?"

"Don't panic" Troy laughed.

"I'll give you a 6....."

"What does that mean?" Lisa asked.

"Well everyone you service will rate you, to Mother....1 to 10.....10 being the best....this is your first time...a 6 is good....I did kind of feel your teeth, you need to open your mouth a little more, and use your tongue more.....and you did kind of choke when I came."

"It's disgusting!" Lisa growled....

"You use my mouth like it's a toilet, I got your cock down my throat, and I swallow your cum like it's something I'm supposed to do.....and I get a "not bad"?"

"Look" Troy whispered.....

"You were....well...ok.....you still have a little on your lips. I'll see you tomorrow and I'll try to make you my first so you get the biggest and freshest load. You'll get some practice today. Remember what I told you, open up, more tongue, and swallow a little faster, this was my third load, some of these guys are going to give you their first and it'll be a lot more than what you just got."

Lisa wiped her lips, and watched Troy leave, happy and whistling. She rushed in and brushed her teeth, but she couldn't do anything about the cum she was sure she could feel in her belly. She hurried out and opened the envelope Troy had brought, and then sat down to read.

"ARE YOU FUCKING KIDDING ME?!" she screamed into the empty house.

There were 9 names on her first list, times and directions. Most of them were downtown, office buildings and businesses, the last two in residential homes. The last home was less than 6 blocks from her own!

"NINE fucking blowjobs?" she mumbled!!

At 11:30 that morning Lisa was standing in the elevator going to the 10th floor of a downtown office building. She was nearly in tears, wearing a short black dress, 3 inch heels and no panties; she looked very professional although she was way out of her environment. When she introduced herself as there for an ORAL INTRVIEW, the young blonde receptionist just smiled.

"You're....new" she said rather than asked.

"Yes" Lisa nervously replied.

"That's why I'm here for an interview"

"OH!....OH my gosh...YES!....an interview!" the receptionist exclaimed. She blushed and fumbled with the phone, suddenly realizing "who" Lisa was!

"Mr. Williams will come.....uh...I mean...uh....be...right out to get you" the nervous young girl explained.

Her first time was so humiliating. Mr. Wilson, not his real name because it wasn't on the building directory.....was a neat sharp dressed young man about 30. He hurried her into his office and ordered the receptionist NOT to disturb him. Lisa was standing in front of ceiling to floor glass windows. Right across the street was another building and she could actually see people in there, probably as easy as they could see where she was.

"Remove the dress" the guy said.

"If you're wearing panties, lose them and the shoes too"

Once she was naked, in a downtown office building, Mr. Wilson took his time examining her. He tried to get a finger to her pussy but couldn't...then tried her ass.

"Are you plugged?" he asked

"Yes sir" Lisa moaned back in total embarrassment.

"In front...and back sir"

"That's a 6000 isn't it?" he asked.

"Yes I hate those.....I was expecting to get some ass today. I wanted to fuck you, so, what else is there, what do you do?"

"I'm here for an oral interview" Lisa mumbled.

"A blowjob! You're here to suck my cock?" he asked. He was obviously irritated with her, it wasn't her fault but she wasn't what he wanted and he was upset.

"Yes sir" Lisa replied.

"Well" he grumbled

"I got that this morning from my wife. Well...ok....do it....get on your knees.....over here, at my chair"

As Lisa dropped and crawled around his desk, she froze for a second. She was right in front of the huge windows, everyone across the street could see her, and there were no curtains. Mr. Williams, in his chair, pushed his pants down, no one could see him, and he sat there waiting.

"Well, get busy, get it in your mouth, and I want a good suck too, nothing sloppy. Don't drip anything on my pants. You swallow don't you? I expect you to swallow. DAMN girl get busy!"

There was lipstick on his cock from his wife this morning. Lisa wondered if she knew her husband was getting sucked off in his office. He leaned uncomfortably back and pushed hip up and closed his eyes. From across the street, there was a woman watching, and then another and then a guy all watching her suck cock!! She took him easily balls deep but choked a second on the smell and sight of yellow piss stains on his white underwear.

Lisa sucked him softly but quickly to a small dribbly finish. It was horrible and watery, but easy to swallow down. When he was done, he wanted his balls licked and Lisa almost lost it. After no more than 10 minutes he pushed her away and pulled up his pants still sitting down. Lisa crawled back around the desk but had to stand up to get dressed again. Across the street there were half a dozen people watching.

"Go, get out, you're done here" He ordered her.

"Yes sir, thank you" she replied as ordered to say by Mother.

Lisa left almost in tears. She just sucked him off and SHE thanked HIM?! The taste in her mouth was terrible, she was angry for not thinking to bring some gum or mints. In the lobby she bought a package of pep-o-mint life savers and chewed most of the pack down. Her next meeting was in an hour, so she found the building and waited outside.

Client number two was an old fat guy with a tiny little cock. She sucked him off in his private bathroom and he tried to kiss her but she pulled away. She left and headed for another hi rise and her 1PM appointment with the "XO group" of attorneys.

The receptionist seemed to be expecting her, Lisa told herself this was going to be normal, but it was very difficult to accept, women knowing who she was and why she was there.

"WOW...you're like.... really...young" The even younger, probably 19 or 20 year old receptionist giggled.

"I'm 23" Lisa said.

"I'm here for an oral interview"

"OH yeah, I know" she giggled.

"I've done that interview myself" she said with a cute wink.

"They're waiting for you in the meeting room, down the hall, first door on the right."

"They?" Lisa asked.

"OH yeah, they've cleared their whole afternoon for you. I'll be in shortly with coffee."

Inside Lisa was greeted by 6 young, cute, very well dressed executives all smiling at her when she entered. None of them was over 30 or so and a couple of them had already started undressing. The meeting room was huge, with a large table in the middle and a dozen chairs around it, however she was led to an adjoining room with two couches, a small table in the center and a full bar

off to one side. There was no need for names they told her and introduced themselves as merely 1,2,3,4,5 and 6. Lisa was ordered to strip and stood there scared and shivering.

"We usually have a more...accessible girl for our meetings" #1 said.

"Mother said you were new and asked us to...well...sort of break you in.....considering your current condition. You are....plugged front and back aren't you?"

"Yes.....sir" Lisa replied.

"It's a....6000, Sir."

"Yes...of course" he continued.

"Well.....you'll be here approximately 2 hours.....you'll be required to suck each of us, to completion, we certainly don't want stains on a \$10,000 rug so you will be expected to swallow everything of course, my wife doesn't like cum stains on my suit. I expect each of us will want to cum at least twice, maybe more depending on time constraints, so gentlemen.....whose first?"

Lisa dropped to her knees and was directed to the first of 3 guys waiting on a couch to her right. She barely opened her mouth and her face was slammed onto a fat 6 or 7 inch cock. He came quickly, a thick nasty load but promised he'd be back for more. Lisa was moved to her left and immediately swallowed a second waiting cock. This one lasted longer, he was short and easy to suck but he erupted like a volcano. Lisa was still gulping when she was moved to the next guy. She sucked him off slowly, trying to catch her breath from the first two. He was in no hurry and spent 30 or 40 seconds between every stroke buried deep in her throat, loving her cruel gagging and choking on almost 9 inches of hard cock.

He erupted directly down her throat, she couldn't even swallow it, it just stuck there halfway to her belly and it burned like fire. She gasped and begged for a drink after her third blow job but they just laughed.

"You'll get more than enough to drink today" someone remarked.

"You've barely started your first round. Someone give this poor slut a cock!!"

Lisa was on #4 when the receptionist entered with coffee. Lisa was gagging and sweating terribly, the sounds coming from her were practically inhuman. The young blonde stayed and watched a while. Lisa choked down another massive load of cum and was directed to still another erection.

"Please!.....I...need..a.....mmmffffffffff!" she begged as her pleas were ignored and fresh cock stuffed down her throat. Her throat was on fire. Cum was like acid to her, she couldn't get it all down no matter how much she gulped and swallowed, it coated her mouth and throat like glue, thick and nasty, and constantly flowing. After her first 6 loads, a pool of fresh man juice in her belly, grumbling and stewing, she was lead back to her first client.

"Six blowjobs in 45 minutes" he laughed.

"Looks like were going to have time for thirds today!!"

Lisa was exhausted after #7.....her lips were sore and her jaws hurt. She was tired and it showed in her efforts. Someone behind her made a phone call, and all she heard was his conversation.

"HELLO?.....Mother!!"

"Hey, your new girl is great....yes, she's still sucking, but listen.... she's just started round two, let's see....her seventh, with a lot more to go. Maybe a little you know...motivational stimulation?.....You got a program that'll give her a little inspiration?.....yeah?.....great!"

#7 came like a hose turned on in her mouth, Lisa choked and swallowed but his cum still flowed out of her nose. She couldn't believe anyone could cum that much! On her way to #8, Lisa saw the blonde receptionist sitting with two hard cocks in her hands, keeping them hard and ready for her to suck! With 7 loads of cum in her belly, not to mention the two from earlier Lisa was turning green!! Her belly ached, it felt like lead inside her, her body was trying to figure out what it was, and how to digest it as fast as it was coming in!

Suddenly from behind her, Lisa heard Pussy's voice and everyone cheered!

"Remote program activated"

"Arousal level.....high"

"Stimulation intervals...5 minutes"

"Orgasms.....denied"

The vibrator inside Lisa kicked in, and so did the sensations against her clit. Lisa was immediately grunting and groaning. The dildo began to move and she tried to raise her head to howl, but hands in her hair slammed her face onto the cock in her throat. At this intensity, Lisa felt an orgasm building rapidly in her belly. She sucked harder, deeper, grunting and groaning, and just as her orgasm hit her, the guy in her mouth flooded her mouth with his cum. Lisa screamed, she choked and gulped frantically. Her orgasm was there, seconds away, she could feel it almost there, so close, so intense, and then it stopped!!

"OH YESSSS!"The guy in her mouth grunted....laughing and cumming and cumming and cumming!

"Swallow Daddy down. Take all that nice hot cum in your belly....suck!.....suck it!.....yessssss.....good little cum slut!"

Lisa was passed around like a rag doll. Three times her orgasm was denied, 9 times, she had sucked and swallowed and the young receptionist was there watching all of it! it was all she could smell, all she could taste, it was in her nose and her eyes. Someone even came all over her belly and held her belt open just enough to let it trickle down her body to her pussy. Lisa groaned in disgust knowing she would be wearing cum inside her belt for the rest of the day! To finish things up, Lisa's mouth was held open by someone, her eyes were glazed over, her mind was in a daze, her belly was full and bloated, and two of the guys stood above her and jacked off into her mouth, watching her throat open and close as she swallowed it with her mouth open.

She was cleaned up finally and escorted to the front doors by the first guy she met. There were 15 loads of cum inside her. She felt like she'd swallowed a watermelon. Her body refused to digest it, and she burped cum for the next hour. As she staggered out the doors, the receptionist called her back. She was handed an envelope and the young blonde mentioned that she would see her again soon!

Alone in the elevator, it was all Lisa could do not to cry. She opened the envelope, and she did cry. Inside were 10 \$100 bills and a hand scrawled note, a rating of 10+! Lisa completed the rest of her assignments on schedule sucking cock all afternoon, and headed home. There were only two more clients to meet, both residential. The first was an elderly gent who gave her a tequila cocktail and half an hour in a hot tub. She sucked him dry under water and almost drowned doing it! The last one, four blocks from her house, was a female!

She introduced herself as Ginger....a 50 year old absolute BITCH.....who wanted nothing less than absolute obedience.

"ON YOUR FUCKING KNEES!" she demanded.

"I WANT YOU NAKED.....MOUTH OPEN, TONGUE OUT, SO FAR UP MY PUSSY I CAN TASTE YOU IN MY MOUTH.....IF I DON'T CUM WHEN I WANT, YOU'LL SPEND THE NIGHT IN A HOLE IN THE BACK YARD WITH THE MOSQUITOS AND THE SPIDERS...GET BUSY CUNT!.....NOW!"

"After sucking cock all day, this should be easy" Lisa thought.

Ginger was vicious....she came like a string of firecrackers, and every time she came, she peed! Lisa licked and sucked, gulped and swallowed, she gagged and choked on pussy juice and piss. for an hour All she wanted to do was puke but she knew she'd pay dearly for that!! Another hour later, her tongue was in Gingers asshole. This was absolutely the most disgusting thing she had ever done. Later Ginger sat on her face and literally threatened to rip her nipples off!! Lisa was screaming and choking on the flood of slime flowing from the woman's pussy like a river! When she couldn't take anymore, Ginger pushed Lisa aside and left her saturated in her slime, teased, tortured, horny and frustrated.

Later, Lisa was lying in the living room exhausted and totally drained. She hadn't cum all day, and really, only wanted a good shower and a night alone, to sleep. Ginger told her to get out.....when the front door opened and in entered Gingers 40 year old husband.

"You want some of this?.....take it" Ginger said.

The guy looked down and grinned then dropped his pants! Lisa gave her last "oral interview" of the day. He was a greasy, smelly, disgusting slob, and his cum was as nasty as anything she'd ever tasted. He wiped his slimy cock in her hair and shoved her out the front door naked, holding her dress in her hands. Lisa was sobbing, naked and sore everywhere.....her mouth tasted like a sewer, her lips and face smeared with the latest cum dumped onto her. She didn't even try to dress. Lisa was so tired and sore and angry. Naked. she walked to her car and drove home. In the garage, she sat and cried. The image of every cock that had used her flashed thru her mind. She remembered the taste of every one, the floods of cum that was forced into her, the laughter and the humiliation, her need to cum, denied to her all day long.

Lisa showered, and crawled into bed and fell into a deep, dead sleep. An hour later she was awake again.

"Pussy" she whispered.....

"I want...to...cum"

"Program initiated" Pussy whispered.....

"Arousal level medium...."

"Orgasm.....allowed"

As the vibrations began, and the dildo started to move.....Lisa closed her eyes and moaned...in the dark, she was alone, there was tranquility, a sense of peace. Her orgasm built slowly and ripped thru her.....as expected.

Lisa sobbed softly, and fell asleep. In the morning, she was awakened by Troy.....and a new day began. A new day...like every day. A SA6000 day.
