

The Machine

Synopsis: Poor charlie is strapped into a machine and then humiliated by the girl he wanted to date, he eventually comes to love it.

Milly had invited me around to her house for the weekend. Well, it wasn't her house; she was house sitting for a family friend or something or another. It was a pretty sweet deal, she got this amazing house all to herself for the entire weekend, plus, she was getting paid for doing it. We had known each other for most of our teenage years, her family had moved to town from New Zealand, so Milly had a sexy New Zealand accent, growing up right next door to each other that's what happens and we had become the best of friends. And over the years I saw her develop into a gorgeous girl, and now at 20, she was 5 foot 7, about 130 lbs and had brunette hair and deep blue eyes. She had such perfect breasts as well and caused many who walked past her to accidently walk into lampposts. Even though we had been close friends all our lives, I had always wished something would happen between us.

"Pretty sweet, huh?" asked Milly, "it sure is" replied Charlie. "Three bedrooms, two bathrooms, a massive garden and check out the massive TV in the living room" gestured Milly, "I bet porn would look amazing on that thing", she then make cock sucking gestures with her mouth and hands and then giggled. "However, that isn't the best part" she said with a hint of an evil grin, "I couldn't help but snoop around a bit, what with being here all the time, you have to check out what is in the basement", she started moving towards the door in the back of the house that lead down there, I trailed behind

her like a puppy. She pulled a key out from her pocket and unlocked the door, strange that the door was locked I thought. When she opened the door it was completely pitch black, I couldn't see anything at the bottom. "The switch is at the bottom of the stairs, so just be a bit careful, I don't want you breaking your neck or anything". I walked down the stairs slowly, clinging onto the banister, when I got to the bottom of the stairs I just stopped, still unable to see a thing. Milly walked over to the wall and flipped the switch for the lights; I was momentarily blinded as my eyes had to adjust to the sudden bright light. When I opened them, they were wider than my eyes had ever been before. "Oh my god Milly, what is all this?".

"like I said, I found this when I was snooping around, when I first found the basement door, it was locked, but the key was on the ring Mr Feudal left me with all the other keys, including the key for the shed, although there is just the normal stuff in there, like the sun loungers". I looked around the room, I could only describe it as being some sort of sex type dungeon, there were cabinets on the walls and units against them, with dildos, some of them absolutely massive, bottles of lubricant, whips and all manner of weird contraptions just laying on the counter, what was in them I could only wonder. Hung directly on the wall were different variants of paddles, some with holes in, some not, all different sizes and bolts for attaching rope in various parts of the ceiling and floor. However it was the furniture that had actually made me gasp, if it could be called that. In one corner of the room was a dog cage, although it looked slightly bigger than any normal dog cage, even the ones built for large dogs, and it didn't appear to be made of the same material, it looked more, heavy duty. Against one of the walls was a Saint Andrew's cross. In the centre of the room was some weird type of contraption that I couldn't make heads or tails of. It appeared to have five restraints in total; it had a control panel wired to it with

quite a few different buttons and dials, and at one end, on a pole was a dildo. Milly could clearly see my confusion, "that is a fucking machine Charlie".

"A what?" I exclaimed. "a fucking machine Charlie, I think mr umber and his wife use it, maybe they even use it with other people, it wouldn't surprise me, not after seeing all this" she waved her arms up gesturing to the room. "How does it work?" I asked. Milly smiled "here, let me show you, I was playing around with it the other day and figured it out, climb into it and let me show you", "no way!, I am not climbing into anything called a fucking machine, I'm straight Milly!". "I know you are Charlie, I'm not going to turn it on, pleaseeee" she said while giving me puppy dog eyes I couldn't resist. I thought about it for a brief second "fine". She clapped her hands in glee.

"Ok Charlie climb onto it". I did as she instructed, as I rested my neck, hands and feet into where the shackles were, I ended up on all fours on the device with my bum high in the air. "so this is how it works Charlie, when the person is in this position, the shackles are locked on so they don't squirm, then this" she tapped on the dildo "goes into the person's pussy or arsehole, in and out, you get the idea, until the person controlling the device decides to turn it off, sounds pretty hot doesn't it Charlie?", "err I guess, anyway Milly I'm getting out of this thing n.." when I heard a metallic noise, I tried to rise up, but I couldn't!, the shackles had locked, locking me in this fucking machine on all fours and my neck in place too. "Milly! What was that?!, what did you do?!", "oh shit I must have leant on the button or something, one sec, will have you out in a sec". "Ok please hurry!", I could see her pressing some of the buttons when I suddenly heard a rumbling noise behind me. "Erm Milly what did you just do?, did you just turn the dildo on?". I looked up at Milly and she looked back with a panicked look on her face "I think so".

“Well turn it off!”. “I’m trying, I thought I had this thing figured out the other day, but I must have pressed the wrong button”. “Milly, seriously turn it off or open the shackles so I can get out”. I could hear the rumble of the dildo behind me, and from what I remember, it was quite thick and at least seven inches long, at that moment I was grateful I was still dressed, surely that thing couldn’t pierce through my jeans?. I looked up pleadingly at milly “how’s it going there?”, “erm well I’m not quite sure what I’m doing, these things aren’t labelled clearly”. “Well that fills me with confidence”. My eyes suddenly went as wide as they had when I first entered the basement; I had briefly felt the dildo brush up against my jeans. “milly, what did you do?, it’s getting closer to me”. Milly stopped pressing buttons and looked behind me “oh shit...it is actually, I can see it, with every thrust it is getting closer and closer to you, eventually, it will pop in”.

"Ok Milly you seriously have to do something here", with every thrust it was getting closer and closer to its' desired target and brushing so ever closer against my jeans. "i'm trying Charlie, i don't want to just go randomly pressing buttons, i'm not sure what else it could do to you". "Ok, just please, hurry!", by now the dildo was touching me on every thrust and starting to push into the crack of my jeans, every time it would pull back it would pull the entire length back before pushing forward again. Then the speed of the dildo picked up, thrusting forward and backwards with new energy. Milly looked at the dildo "shit, i must have increased the speed" "you don't say!, i can tell, is there not a button on there labelled off?, or surely just pull the plug out". "Nothing on here is labelled Charlie, and there is no plug coming from the machine, everything just goes into the floor". By now the dildo was thrusting so fast and so close to

me, it was starting to hurt a bit as it was only centimetres away from its target.

Milly heard me groan in pain, she stopped fiddling with the control panel, looked at me, then at the thrusting dildo, she placed the control pad down and stepped around and to the side of me. She then starting reaching for my jeans, she was unbuckling my belt!, "Milly! What are you doing? Why are you taking my jeans off?, they are the only thing stopping this thing going in!". "Honey, i don't mean to scare you, but i don't think i can stop that thing, i can't find the off button or figure it out, everything i do or press is only making it worse. Right now, it's teasing you by just grazing you, but eventually that thing is going to go inside you", my heart sank at that, the thought of me, a straight guy, being violated by this, machine sickened me. "And by the looks of this machine, and the dildo, your jeans are likely to give before the machine, and eventually the dildo will thrust with enough force, it will pierce your jeans and enter you with such force it will hurt so much, by me lowering your jeans and underpants, it will still enter you unfortunately, but it will be with less pain".

Despite the fact that by her actions, the dildo would enter me sooner, i could see the logic in what she was doing, this way, there would be less pain involved. So i allowed her to lower my jeans and underpants to just below my arse. I felt so humiliated right now, in all the years me and Milly had known each other, we had never done anything sexual or had even seen each other naked, the closest when we were in our swimming costumes, and now here i was, trapped in a "fucking machine", my arse on display to her and a dildo just pressing against my hole every second or so.

"I'm so so sorry Charlie, for putting you in this". I looked up at her pleadingly as best as i could, my neck still shackled in place, making me look forward "please keep trying Milly, you have to do something, i have to get out of this thing eventually". "i'll keep trying", she moved back to the control panel, concentrating on each button, clearly too fearful to press anything before knowing what she was doing in case she pressed the wrong thing and put me through something else. By now the dildo was really beginning to press against my hole, just enough to begin to make me open before retreating, i was shackled so well that i couldn't even wiggle at all to try to evade it. I truly believed her now when she said the dildo would pierce my jeans. I was so lost in my thoughts i hadn't noticed Milly had leaned closer to me, when i looked at her she had a massive grin on her face, "so then Charlie, fuck my little sister and film it all on your webcam and show it to your friends will you?", she pressed a button on the panel and the dildo entered me, fully, all seven inches, i squirmed and howled out in pain.

I couldn't believe what had just happened, all in one go, the dildo had entered me right to its' balls, and was now fucking me hard and fast, and there was nothing I could do, despite all my pulling against the restraints, they wouldn't budge at all and I was stuck here until Milly decided to let me out, I now realised she knew exactly what she was doing and had planned this. "You didn't think I would find out?, just because you showed the video to your friends that you go to football practice with and I don't know, well your friend Tom, who you showed it to, has a sister that I go to dance school with, she found the video on Tom's laptop and recognised my sister as she goes to dance also. She showed me the video and I couldn't believe you would do that to my sister, show the video around just to have some laugh with friends. Luckily my sister doesn't know about the

video and never will, but unfortunately for you, I do, and as you may have now pieced together, I will have some fun revenge on you".

"Milly! Please let me out, I'm so so sorry" I screamed as the massive dildo continued to pound into me "you've had your fun, you've humiliated me and managed to fuck me with a dildo, now please let me out". Milly laughed "oh my dear little anal slut, we have just begun", she then pressed a button on the panel, the dildo completely retreated, exiting me fully, pausing briefly, before quickly entering me, I howled again. It did this on each thrust, it would exit completely, then fast and quick it would enter me all the way. Milly just stood there with a huge grin on her face and patted me on the head "be right back slut". Milly moved behind me and I could hear her climbing the stairs. Where was she going? was she leaving me here? Surely she wouldn't.

Now that i was left on my own, i contemplated my situation. I was a straight guy, a 100% straight guy, liking girls only and had never even looked at boys in that way. But now here i was, strapped on all fours, arse in the air and a seven inch dildo fucking me. So why was my dick rock hard?. I had just begun to question that when i heard Milly returning, i could hear her footsteps on the stairs. I looked over at her as best i could; she was carrying a chair and her laptop. What was her laptop for i wondered. She set the chair down and placed her laptop on the chair and walked over to me and checked each restraint, probably to check i couldn't escape. She then looked under my chest and noticed i had a raging hard on, "oh Charlie, are you enjoying this?", she stroked a finger along my cock, making me moan slightly, "well by the time we are done i'm sure you will love anal and will be begging me to put something larger in you". "Milly please, just stop this and let me out", Milly walked behind me and

smacked me very hard on my arse, causing me to jump forward what little i could and yelping in pain, "oh pet, not for quite awhile, now if you don't mind being quiet, i would like to watch a movie, but if you speak again before i say you can, i will gladly spank you some more" she sat down and opened her laptop up, she then rested her feet on my back. On top of everything that had happened so far, she was now going to use me as a footstool!.

It had now been about thirty minutes into Milly's movie, during which time she had only paid attention to me once, when i had begged again for her to let me go, to which she administered ten spanks to my arse which all hurt, she warned me that each time i spoke without permission i would be spanked again, harder. She had then gone back to watching her movie and using me as her footstool. So i was now quiet, just staying there on all fours, not that i could do anything, accepting the seven inch dildo pounding in and out of me, every time i had begun to get a bit used to it and accept it, Milly would notice, reach over to the control panel and change the setting. So it had shifted between going in all seven inches, then pulling completely back out, to only going in a few then coming out, going slowly to going fast. She did this so i never had the chance at being comfortable, if one could become comfortable continuously being fucked in the arse.

With all the moaning and screaming and begging I had done, I hadn't noticed how dry my mouth had become and I was now very thirsty, "Milly can I at least have something to drink please?". "Jesus Christ slut!, will you shut up!, I can't hear my movie!", she stood up and walked behind me and spanked me again, this time 15 spanks, I screamed out in pain as each was administered. "Charlie this looks so cute, your arse is so red from the spanks and it's nice seeing this

dildo pound you. She stood there for a minute "hmm I know something that will shut you up and give me some peace and quiet so I can watch my movie". I could hear her rummaging around in a few of the cupboards. She then stood in front of me, in one hand she had a metal pole with some wires attached, and in the other hand, a dildo similar to the one at the back, white and seven inches long.

"W..What's that for? What are you doing?". She began to attach the new pole to the contraption I was stuck in "oh just something to provide me with a little bit more entertainment and to allow me to watch my movie in peace and quiet". When she was done, the new part of the machine was wired up to the same control panel controlling the dildo in my arse, and at face level, well, mouth level, was the new dildo and due to the restraint around my neck, I couldn't move my head. "let me just get something to ensure your cooperation with your new friend". When she returned, she had in her hands a ring gag "N000000000000", she moved behind me and gave one hard smack to my arse "this will keep you quiet". She attached the ring gag to me, my mouth was now held open and in an o shape. "close your mouth if you don't want to give your new friend a blowjob" she said with a wicked grin on her face and pressed a button on the panel, the dildo began moving towards my mouth.

There was nothing I could do to stop it. I couldn't close my mouth nor could I move my head out of the way. The dildo then entered my mouth, I didn't like the feeling at all, at first it felt like I was suffocating and couldn't breathe. "It's ok slut, you will learn how to give good blowjobs, just breathe through your nose". The dildo hit the back of my mouth and I began to gag "we will train that out of you too". I tried to beg her to take this thing out of my mouth. Milly smiled "now I will be able to watch the rest of my movie, oh and just

to keep it fun for you, I have set it so that when one of the dildos is entering you, the other will be withdrawing, but I don't want you speaking, so the one in your mouth will withdraw just to your lips". Milly sat back down on her chair, rested the laptop on her lap and put her feet back on my back and continued watching her movie, not paying a blind bit of notice to my torture. "finally some peace and quiet, although I can still hear the machine, I don't have to put up with your begging and whining like a little puppy" she said as the dildo pumped in and out of my mouth, as it had been now for about an hour and a half and I was forced to suck on a dildo as saliva and tears fell down my face.

After about thirty more minutes I could hear the credits of Milly's movie begin, indicating it was over, she closed her laptop, placed it on the floor and stretched "how is my little anal slut doing?" she got up and walked around me "despite your moaning and begging I honestly think you enjoy this, your cock is rock hard and dripping precum". She pressed a button on the control panel and the dildo assaulting my mouth stopped, she then withdrew it all the way out, giving me a little respite. She then grabbed my cock, wiping her hand all over the head "wow a lot of precum here, you little slut". She then brought her hand up and smeared it all over the dildo. My eyes widened as I realised what she was doing. She pressed the button again and the dildo started its' assault on my mouth again, only this time covered in my precum, which I could very clearly taste. She pressed another button on the panel and the dildo in my arse stopped moving "I just want to check something, don't think I'm stopping". She pulled the dildo out of me; oh my god was it nice to have that thing removed. Milly burst out laughing, "wow you have a massive anal gape, it's like a yawning hippo, I guess it must have hurt when that thing first went in you, it didn't have any lube on it, poor little puppy", Milly then placed the dildo back at the entrance and pressed the button again, it sank all seven inches into me,

although it didn't hurt that much, I mentally sighed, how long was she going to keep me here?. "hmmm what to do with my little pet now?, oh! I know!" she said with glee.

She sat back down on the chair, got her laptop up and started typing away, resting her feet back on my back. "I wonder if I can make any money out of this" she said to no one in particular. What? How could she make money out of this?, what was she going to do to me now?. "Have you heard of a site called chaturbate my pet?, what's that? I can't hear what you're saying, god Charlie you are so busy sucking cock to talk to me, well let me explain, it is a live webcam site, for sexy stuff of course, you broadcast your webcam, do sexy stuff, people join and watch and they can tip you money, most of the time you set it so that for example, once you have received a certain amount of tips, you will perform a certain sex act, and that is what I am going to do with you my little slut, we will start of showing people in your current state, then I will set some numbers and once I receive certain amounts of money, I will do extra things to you, it will be so fun". I couldn't believe it. What she had already done to me was bad enough, now she was going to show me in this state to god knows how many people, and do much more to me, while she was pocketing money from it.

"Mr Feudal actually gave me this idea, that's right, he knows everything, I told him what you had done to my sister and he was the one that came up with this idea for revenge, see I'm a bit more kinky than you might think, mr Feudal is my master basically, but I won't go into all the details as it isn't important, but what is important is we get my pet ready for his big show". Milly walked over to one of the cabinets and came back with a large pair of scissors, "hold still pet I'm just going to cut your clothes off and I

don't want to hurt you, at least, not in this way". Snip snip snip and after a few minutes Milly had cut away all of my clothes and pulled them off, now I was still stuck in this fucking machine but completely butt naked with two dildos going in and out of both entrances. She sat back down on her chair and was typing away for a few minutes before announcing "ok then pet here are the tip targets and what will happen to you once each is reached".

"Oh but before we begin my pet I should tell you, in case you are thinking of not obeying your mistress, Mr Feudal has four cameras in each corner of the room, which have been filming the entire thing, which I have copies of, so if you do not obey me and be a good little slut, your friends and family will see them, are we clear?, nod if you will behave". In the position I was in I couldn't really nod but I made a slight nodding motion and a noise. She smiled at this, "ok pet here are the goals, when someone tips 20 tokens, I will put nipple clamps on both your nipples, for every additional 10 tokens that get tipped, 10 grams of weight will be added to your nipples, up until 50 grams, if they rip off, I will take 10 off and reattach". Oh god this sounds awful I thought, but Milly continued on "at 100 tokens tipped, I will spank your testicles ten times, hard. Now, at 100 tokens I will spank and whip your arse 100 times, maybe you will even cry, that will be cute. At 150 tokens, I will put a strapon on and fuck your arse for five minutes, then put the machine back in you". By now I was cringing at the thought of this stuff, but still, milly continued on. "At 200 tokens, I will swap the dildos around, so the dildo that has been fucking your arse all this time will now be fucking your mouth and vice versa" what? I thought, surely I would throw up at that. "At 250 tokens, I will take the dildo out of your arse and swap it for a longer and thicker one. At 300 tokens, I will take the dildo out of your mouth, wank you and make you cum all over the dildo, then reattach it to the machine. What happens at 400 tokens tipped will remain a mystery until it happens to you, but

remember what happens if you disobey, now, I'm ready to begin and I've even put a description up of your situation so people know you aren't doing this willingly, now let's begin". From the corner of my eye I could see a green light on her web cam, indicating it was on, and I assume, broadcasting to chaturbate and other people. I closed my eyes in shame, yet still I had a hard on.

So now I was broadcasting to chaturbate and a number of strangers, all around the world, who were taking delight in my predicament and possibly even wanking to it. It hadn't been too long before Milly happily announced "there are 30 people watching you". So now 31 people, had seen me naked, bound to a machine and having two dildos pounding into my arse and open mouth. By the time Milly gleefully announced someone had tipped 20 tokens, meaning I would have nipple clamps would be attached, she had informed me there were now 100 people watching me, how humiliating. Milly got off her chair, walked over to the cabinet and grabbed the nipple clamps I would assume. She reached under my chest, attached one and I was awarded with blinding pain, she did the same to the other nipple. After the initial high amount of pain had faded, there was a dull throb from each nipple; she flicked each nipple, causing more pain and me to gasp. She sat back down on the chair, "ill thank user horny 125 for you, I would get you to say thank you but you are too busy sucking cock you slut". It can have only been another minute when I heard the noise indicating someone had tipped tokens, "you know what that means pet". She walked over to the cabinet and grabbed two weights, walked over to me and leant under my chest, I felt her attach them, and my nipples exploded in more pain.

Apparently in total 70 tokens had now been tipped, so that now 50 grams of weight were on each of my nipples and they were in

excruciating pain, as the weights tried to rip my nipples off. Milly had also informed me there were about 350 people in the room watching me, I couldn't believe it! 350!, apparently I was among the top featured on the front page of chaturbate as it had proved so popular. Then I heard the noise indicated a tip and dreaded what was to come. "Thank you littleunicorn for tipping 30 tokens, we have now reached 100 tokens which is the next goal". Milly walked over to me, oh god what happened at 100 tokens again?. I was knocked out of my train of thought by Milly's hand slamming into my balls, then again and again, I screamed into the dildo in pain, remembering it was to spank my balls 10 times, one was bad enough but I was tearing up by the time she reached ten. My nuts were in so much pain as Milly sat back down on her chair "ok guys just 50 more tokens and I will fuck my pet in the arse for five minutes. I was now in so much pain, from the dildo still pounding my arse, the clamps trying to rip my nipples off and the throbbing pain from where my balls had been spanked. Every now and then Milly would thank random users for donating different amount of tokens, 5, 10, 20 etc. Until finally she announced "pet, it's time for me to do you with a strapon, oh, and you now have 1000 people watching you". 1000? Who were these people taking delight in my torture.

I heard Milly rummaging around in the cabinets and she then walked over to my face, I could see she was wearing a harness at her crotch from which a very thick and at least 9 inch penis protruded, she bent down to my ear and whispered "I'm going to take the dildo and ring gag out of you, when I'm fucking you I want you to moan and say things that give the impression you love it, if you don't I will punish you so much, understand?". I nodded. Milly pressed buttons on the panel and the dildos at both ends stopped and she removed

the ring gag, I remained silent. She then stood behind my arse "good thing I selected a bigger dildo, you are gaping so much you wouldn't have been able to even feel a normal cock, now just remember what I said my slut". She didn't waste any time, she immediately plunged the dildo deep into my arse and I howled in pain, it was definitely longer and thicker "yeah take it you slut", milly pounded me like the machine, but it was definitely different to the machine. I remembered what she had said to me and threatened me, so I started to moan in pleasure "yes milly, please fuck my arse hard, I need it!". "That's a good slut, pet, don't worry I will". At that she seemed to fuck me harder and faster, determined to get that dildo as deep into me as possible, while doing so she would often spank my arse or wank me for a brief second, I still had an erection "yes milly! Yes, please more!". She laughed at that and continued her fucking, "you know pet, all the time you have been into this machine, you have had a boner, I think really you are a submissive little slut who enjoys things like this but doesn't realise it, don't worry though, I'll help you enjoy it". Eventually milly announced it had been five minutes, she pulled out with a plop and reattached the ring gag and both the dildos and turned them on, and she got out of the strapon, got dressed and sat back down. "Pet, everyone enjoyed that, they are all commenting on how much you looked and sounded like you enjoyed it, and now there are nearly 2000 people watching". Oh god I thought. "Oh I didn't even realise, during that time we had 50 more tokens tipped, thanks guys, next goal".

Milly got up and walked to the machine, turning both dildos off. What happened when 200 tokens were tipped? I was rattling my brains trying to think. She took the dildo of the machine that had been fucking my mouth and walked behind me, taking that dildo off the machine and attaching the one from my mouth to it. I tried to scream no but all that came out were indistinguishable noises "are you trying to thank Luvngrl?, it's ok pet I'll do it for you". Milly

walked to the front of the machine with the dildo in her hand, the dildo that had been pounding my arse for god knows how long and attached it to the machine, just inches from my open mouth. I was not looking forward to the next part. Milly switched on the machine and the dildo that had been fucking my mouth entered my arse, but that wasn't the scary part. The dildo that had previously been fucking my arse now moved towards my mouth, and entered. I cringed at what was happening. But then I relaxed, even though I could taste the difference, it wasn't as bad as I thought it was going to be and I could get used to it. Milly was sat at her laptop "everyone loved that, seeing you suck that dildo in your mouth, I'm getting so many thanks for this show, even some people are asking how much for a private show. I'll probably do those another date pet". What? Does this mean she is still going to torture me like this in the future?.

Apparently everyone had loved seeing the dildos get swapped that they were eager for more, and a user called sorrow had donated enough tokens for the next goal, I heard milly thank her and said that she hoped she would enjoy what she had paid for. Milly was now rummaging in the cabinets, she then came over and laid her chosen item behind me, I was unable to see it. She turned off the dildo in my arse and take it off, I heard her attach the new one. "Ok pet and sorrow, just so you both know, both dildos that have been fucking his arse were 7 inches long and had a circumference of 4.5 inches, this new one that is about to enter him is 11 inches long and a circumference of 6.1 inches". At that she pressed the button and the dildo sank into me, I screamed into the dildo in pain at my arse being stretched wider and my insides being invaded further. Milly sat back on her chair "sorrow said she absolutely loved seeing that, your little face moan in pain". Although I hated being fucked in the arse, there was a new sensation, was this pleasure?.

While i was still the focus of the show, i could hear milly talking to some of the members, answering questions from people called ranzid, CK, Ashley amongst a few. "oh pet good news", i looked over at her, it probably wasn't good news. "Ranzid has given the tokens for the next goal, isn't he a sweetie?", i mentally sighed, although knowing now that milly would give me a hand job was something i looked forward to. She walked over, turned off the dildo in my mouth and took it off, laying it under my stomach. She then grabbed my cock and i gasped, she wanted to give a good show, so she was wanking slowly, she knew what she was doing. Involuntarily i began trying to hump into her hand, milly noticed this and laughed "did you see that everybody?". She continued wanking me and i could feel myself getting closer now, i was really moaning now and gasping too. And then, it finally happened, i had an incredible orgasm, i could feel myself cumming and it felt like a lot, it was one of the best orgasms i had ever had, and it was while i was being fucked in the arse, what is wrong with me?. "good boy, such a good boy my pet", milly reattached the dildo to the machine and i could see it was covered in a lot of cum, i cringed. "you have been sucking cock so long it's about time you be rewarded with some cum. She pressed the button and the dildo entered my mouth and i could instantly taste the cum. It was something i had never done or even thought of doing, yet while it was quite sticky, it actually tasted quite nice, i licked it off the dildo when i could "oh wow pet you like cum huh?, i'll have to give you more, from other people of course though" i barely heard her say that and didn't even acknowledge what it meant, i just continued sucking cum.

"well once again they all love that, they all can tell you love cum and say you are a good little cock sucker, I'll have to put your skills to good use", did that mean she was going to make me suck cock? Real human cock?, I'm not sure how i felt about that, it was weird, i would have thought i would be disgusted, but also part of me was curious,

what was happening to me? Was i starting to enjoy this?. While i thought upon this, Milly continued talking to the members, answering questions, and keeping people entertained, "oh pet, MissEmmaK has given enough tokens for the finale, let's make sure we put a good show on for her, i'll get you read and then i'll explain". She went over to the cabinets and brought some stuff over. She turned off both the dildos and unshackled both hands, i didn't try to do anything, remembering her previous threats, to my right hand she slipped over some type of leather mitten, buckled it and padlocked it shut, i guess it was so i wouldn't be able to use my hands, she did the same to my left hand. She then pulled the dildo out of my arse "hold still puppy", she inserted something else, quite big, i wiggled but it wasn't anything i couldn't handle now, it wasn't a dildo, it felt like a plug. She completely unshackled me and told me to get on the floor and stay on all fours. I did as i was told, as i moved i could feel something brush against my arse, as i looked behind me there was something attached to the plug. "it's a dog tail butt plug my puppy, we are going to put on a pet show for everyone, so be on your best behavior" she said as she attached a dog collar to me.
